

Dual-user technology, new generation of interactive whiteboard.
IQBoard ET-D—Dual-user Electromagnetic Interactive Whiteboard

With IQBoard ET-D in your presentation space, you can completely break up with the traditional boards. Since dual-pen writing technology is integrated into IQBoard ET-D, two users can simultaneously operate on a single whiteboard, thus engaging the participants best and converting the classroom to a more interactive learning environment. Available in both standard and wide-format sizes, the Dual-user Board is durable and easy to use.

Highlights:

- Simultaneously write on IQBoard ET-D with dual pens.
- Independent floating toolbar for each pen to operate simultaneously.
- Each pen writing can be saved together or separately.
- Double-side hard hotkeys on the frame to control each pen independently.

• Features:

- Resolution: 9600×9600; Precision: 0.05mm;
- Signal processing rate: 480 dot/s; Signal tracking rate: 8m/s.
- Rapid and real-time response; no writing delay or intermittent stroke;
- Press on board for 2 seconds to achieve right-click function.
- Solid aluminum alloy frame with groove ready for other accessories.
- Durable surface, solid body, service life up to 10 years.
- Durable PET surface, anti-scratch, high luminance, high definition, and can completely eliminate bright spots.
- You can use either the physical hotkeys (hard hotkeys) on each side of whiteboard frame, or the virtual hotkeys (soft hotkeys) on each side of whiteboard surface.
- Provide pen tray, USB cable (10m) , two markers, wall mounting set and one extra electronic pointer especially for big board larger than 100 inches.
- Windows XP/2003/Vista/7, Linux, Mac 10.X
